

The Legend of Magical Reindeer Dust

It has once been said, that right before you go to bed.
You should sprinkle magic reindeer food,
to quickly bring Santa and his brood.
For many years the legend has been told,
to boys and girls, both young and old.
Sprinkle the food throughout your yard,
then finding your house won't be so hard!
The reindeer can smell the food for 100 miles,
just do not leave it in big piles!
After you do this you must go to sleep very fast,
so Santa and his reindeer will not pass!
